In 1965 the Pachopos family began producing cosmetic products for skin care professionals and just a few years later successfully launched the Yellow Rose professional cosmetics brand. Since then the business has flourished and today the company is still family owned and managed. Our vision is to keep developing professional skin care products that are based on innovation and respect for our tradition.

Yellow Rose professional cosmetics cover a complete range of skincare products and expert treatments, both for professional and private use. All our products are formulated with stringently selected natural raw materials combined with the latest developments of cosmetic science. Our priority is to produce cosmetics that are safe, effective and accommodate the needs of beauty professionals.

Yellow Rose professional cosmetics are produced in accordance to G.M.P. and G.L.P. quality standards and are ISO 9001 and ISO 22716 certified. As part of our total quality management procedures we apply continuous checks both on raw materials and final products so as to achieve the best quality we have been offering our customers for over 40 years.

Yellow Rose professional cosmetics are produced in our privately owned facilities (1800m2) located at the outskirts of Athens. Our factory is equipped with high technology machinery for production and packaging as well as fully outfitted laboratories for Research & Development, chemical and microbiological analyses.

Our focused, scientific approach towards skincare products and our client orientated mentality have placed us at the top of the domestic market. This also enabled us to develop an international network of Yellow Rose exclusive distributors and dealers across over 30 countries.

As part of the Yellow Rose after-sales customer care, our experienced team of scientists and beauty experts is always keen to advise, collaborate with and address any problems or queries our customers may have.

In addition to the Yellow Rose products we also offer cosmetic equipment and accessories providing all round skin care solutions for the beauty professional.

We would like to thank all those who choose Yellow Rose professional cosmetics and pledge that our team will keep working with the same passion and principles in order to keep producing unique, innovative and exclusive skin care products and treatments.

## Oligopeptides + (110 mg/ml concentration) 1 vial x 7ml

- Anti-wrinkle serum with Botox-like and Retinol-like effects
- With Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7 and Palmitoyl Tripeptide-38 (Matrixyl 3000 & Matrixyl synte'6): These oligopeptides activate the natural process of Collagen, Hyaluronic, Laminin and Fibronectin by the fibroblasts (Retinol-Like effect). Wrinkles are smoothened and skin elasticity is improved.
- Acetyl Hexapeptide-8 and Pentapeptide-18 (Argirelox): Active oligopeptides that fights expression lines by minimizing, in a natural way, muscle contractions (Botox-Like effect). Helps also to maintain the results of actual BOTOX treatments.
- Contains also: high molecular weight Hyaluronic acid, Elastin, a moisturizing Polysaccharide, Allantoin, Panthenol, Trehalose and Betaine.

AGE **35+**

- ANTIWRINKLE
- BOTOX-LIKE

## Hyaluronic acid (30 mg/ml) 1 vial x 7ml

- Moisturizing and antiwrinkle serum with very low molecular weight Hyaluronic acid.
- Hyaluronic acid retains the water of the TEWL (Trans Epidermal Water Loss) maintaining the epidermis moisturized, smooth and firm
- Contains also high molecular weight Hyaluronic acid, Elastin, a moisturizing Polysaccharide, Allantoin, Panthenol, Trehalose and Betaine.

AGE **30+**

- MOISTURIZING
- ANTIWRINKLE

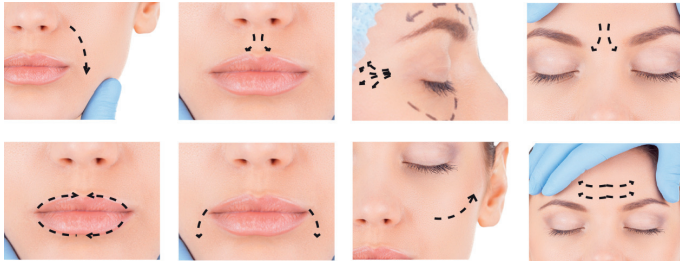

## Wrinkle-Fillers (60 mg/ml concentration) 1 vial x 7ml

- Highly active serum with Hyaluronic and marine Collagen microspheres ('wrinkle fillers'). When combined with other mesococktails should be used first.
- The microspheres enter into wrinkles where they absorb the water of the TEWL (Trans Epidermal Water Loss), increase in volume 10-20 times and fill the wrinkles from within. The volume increase lasts for approximately 8 hours. After that Collagen and Hyaluronic remain in the epidermis offering long lasting moisturisation.
- Contains also Ceramides that protect and moisturize the skin.

AGE **35+**

- WRINKLE FILLING

#### Whitening + (52 mg/ml concentration) 1 vial x 7ml

- Active Serum with 5 whitening ingredients.
- Biomimetic whitening Oligopeptide encapsulated in liposomes. It helps reduce melanin synthesis by inhibiting the MITF, TRP-1, TRP-2 proteins and tyrosinase.
- Special active (Hydroxyphenoxy propionic acid) that binds to existing melanin making it inactive.
- Satsuma mandarin (Citrus Unshiu) extract that helps reduce melanin formation by inhibiting the tyrosinase enzyme
- Active mixture of *Rabdosia rubescens* & *Siegesbeckia orientalis* that operates against the skin chromophor groups. It protects Collagen from degradation (Collagen degradation makes the epidermis thinner and allows discolorations to be more visible), reduces Melanin and Hemoglobin.
- Stable form of Vitamin C (3-O-ethyl ascorbic acid) that reduces melanin production by affecting tyrosinase and TRP2
- Contains also high molecular weight Hyaluronic acid, Elastin, a moisturizing Polysaccharide, Allantoin, Panthenol, Trehalose and Betaine.

#### Vitamin C + (100 mg/ml concentration) 1 vial x 7ml

- Highly concentrated Vitamin C serum with antioxidant and whitening action.
- Vitamin C is one of the strongest antioxidants and at the same time is involved in the natural Collagen production pathway. In addition, Vitamin C reduces Melanin production by inhibiting the action of Tyrosinase.
- Contains also high molecular weight Hyaluronic acid, Elastin, a moisturizing Polysaccharide, Allantoin, Panthenol, Trehalose and Betaine.

#### VitaMinerals + (160 mg/ml concentration) 1 vial x 7ml

- Strong antioxidant, nourishing and toning multivitamin serum enriched with mineral elements.
- Contains: Vitamin A (improves skin elasticity, strong antioxidant), Vitamin E (powerful antioxidant), Vitamin C (antioxidant and whitening action, helps collagen production), pro-Vitamin B5 (calming, moisturizing action), Vitamin B3 (moisturizing and calming), Vitamins B1, B6 and B12 (toning, nourishing, moisturizing action) and mineral elements (Zn, Cu and Mg) that activate the natural skin cell metabolism.
- Contains also high molecular weight Hyaluronic acid, Elastin, a moisturizing Polysaccharide, Allantoin, Panthenol, Trehalose and Betaine.

#### Lifting + (205 mg/ml concentration) 1 vial x 7ml

- Face firming serum that offers both immediate (flash Lifting) and long lasting Lifting effects.
- Contains firming and toning Homotaurine (aminoacid from seaweeds, analogous to Taurine), three active Oligopeptides (Hexapeptide-10, Tripeptide-2 and Tetrapeptide-2) with firming and anti-sagging effects (, a firming Cyclodextrine of plant origin (Flash Lifting effect) and vital Minerals (Zn, Cu and Mg) that activate the natural skin cell metabolism.
- Silanol with Mannuronic acid: Complex of organic silicium (natural constitutive element of the connective tissue) and mannuronic acid (extracted from brown algae). Highly moisturizing agent with soothing and anti-inflammatory properties that firms and improves elasticity.
- Contains also high molecular weight Hyaluronic acid, Elastin, a moisturizing Polysaccharide, Allantoin, Panthenol, Trehalose and Betaine.
